GENERAL INFORMATION

YMCA Child Care Philosophy

YMCA programs are designed to encourage children to build healthy, happy attitudes and to work toward developing competencies and skills through a variety of work and play experiences. Our goal is to develop the individual child's positive self-image, creative expression, communication skills and motion coordination, in an environment that stimulates a desire to learn and have fun.

Non-Profit Organization

The Prescott Young Men's Christian Association of Yavapai County, Inc. is a 501(c)(3) non-profit community-focused organization dedicated to putting Christian principles into practice through programs that build healthy spirit, mind and body for all.

A community volunteer Board of Directors sets policy, gives ideas and oversees financial decisions that govern the YMCA. Founded in 1914, the James Family Prescott YMCA has followed Prescott's growth. It is supported by memberships, program fees and public and private contributions. As a membership organization, the YMCA is open to everyone regardless of their ability to pay. An extensive scholarship program ensures access to kids and families who could not otherwise afford the benefits of the YMCA.

State Licensed

As an Arizona State Licensed facility, we are inspected annually. Parents/Legal Guardians may review inspection reports at any time.

Arizona Department of Health Services
Child Care Licensing

Phoenix, AZ 85007

Department of Economic Security Child Care Administration (DES)

Our YMCA Child Care Programs are DES certified. It is the responsibility of the parents/legal guardians to meet with DES and make the necessary financial arrangements, prior to attending the program. The Y must receive a verbal or written authorization from DES to verify reduced rate. Full rates will be charged until there is DES verification on file. *Parents/legal guardians are responsible for any unauthorized time not paid by DES.*

Communication

Individual program licenses, indicating program capacities, licensing exceptions and recent licensing inspections are displayed by the entrance check in/out area. This is where parents/legal guardians are notified of important information and center policies.

Communication with parents/legal guardians is a crucial part of our program. The staff communicates with parents/legal guardians in many ways through daily reports, parent/legal guardian meetings, telephone contact, formal conferences and conversations when your child is dropped off and picked up. Each staff person will employ his/her own methods of communication with you. If you ever feel that the communication is not as frequent or as detailed as you would like, please see the Child Care Director so that additional arrangements can be made. All parent/legal guardian comments and suggestions are valued.

Annual Campaign

Summer Camp is a place where kids can learn valuable character-building lessons, new skills, and make new friends. Unfortunately, many children are unable to experience this, simply because of their inability to pay. We at the YMCA, strive to give every child the chance to attend camp through the Annual Campaign. This fund allows most children to experience camp through financial aid and scholarships made possible by generous donations.

Please help us achieve our goal and give to our Annual Support Campaign.

100% of every dollar raised goes directly to the fund.

There are no overhead or administrative costs. Tax deductible.

ENROLLMENT

Attendance

Daily attendance rosters and sign in/out sheets are used to sign children in and out of the program. They will be used in the event of an emergency to determine the number of children in the program. Your child's teacher will know the number of children in attendance in their care, as well as the name and location of each child.

Sign In/Out Procedure

- We are using ProCare to sign children in and out. Your signature is required on the tablet or on the app when signing in and out.
- Signers may be requested to show proof of identification at the time of pick-up.
- Children will be released only to those listed on the child's emergency form and added as authorized pick in ProCare
- Emergency contacts need to be local and able to pick up the child within one hour.

Pick-up Procedure

- Anyone who is picking up a child other than the child's parents/legal guardians must be designated on the Child's AZ Emergency Information/Immunization Card and must provide photo identification.
- If a parent/legal guardian wants someone else to pick up their child for a specific day and time, the parent/legal guardian must provide a letter to the Child Care Director in advance.
- No child will be released to anyone appearing to be under the influence of drugs or alcohol.

PARENT/LEGAL GUARDIAN COMMUNICATION

Absent Child & Attendance Methods

All our child care programs require the known whereabouts of the children at all times. This is done through ProCare app either by using a QR Code or using the iPad. If a child is absent from a scheduled program without parental/legal guardian notification, the staff will contact the parents/legal guardians to learn the child's whereabouts.

Preschool:

We ask the children arrive by 8:00 am, 9:00 am at the latest so they can easily transition to their classroom. Arriving by 8:00 will allow your child some free play and/or outside time with other friends from other classrooms. If your child will be late or will be absent, please call the Preschool office by 9:00 am.

Repeated failure to notify YMCA staff of a child's absence could result in denial of program services.

Custody Arrangements

Staff will not become involved in custody disputes. A copy of the most current certified court order must be submitted at the time of enrollment or if a change occurs in the structure of the family. The order will be kept on file at the YMCA.

Court Order on File:

- Primary/Sole Custody: Staff will follow written instructions provided by the parent/guardian identified as having primary or sole custody on the court order.
- Joint Custody: Staff will abide by the court ordered custody arrangements specified for each day. Each parent/legal guardian will be requested to provide written instructions identifying persons authorized to pick up their child on their court ordered day.
- It is the parents/legal guardians' responsibility to work out payment arrangements with each other; as the enrolling parent/legal guardian is the one responsible for payments.

Court Order NOT on File: Staff will allow both parents/legal guardians to pick up their child.

PROGRAMS

Preschool

Ages: 3 years (non-diapered) – 5 years

Our goal and priority are to provide an environment for learning. Our program concentrates on developing the whole child and values uniqueness within each child. We provide a developmentally appropriate learning environment that promotes their growth through these formative years. Children will be exposed to numbers, shapes, colors, and letters, as it pertains to each child and their individual needs. It is our philosophy that for children in preschool, much of their learning is done through play, exploration, and discovery. We provide opportunities for open-ended art, songs, games, swimming, gardening, and gymnastics. As children develop and grow, they will transition to newer classrooms. The decision for a child's movement will be made by the parent/guardian, teacher, and director based on the developmental level of the child.

CHILD EDUCATION

Holidays

Our program will explore and acknowledge all known holidays. These celebrations will help children understand and appreciate various cultures and beliefs. Parents/Legal Guardians with concerns may address these issues with the Childcare Director.

Curriculum/Programming

We believe that children learn best when active and engaged. YMCA program activities will provide each child with experiences to encourage several areas of development, including large/small motor, creative, social, intellectual and cognitive opportunities. Programs will vary to meet individual needs of the respective children and to reflect the creativity of our teachers.

Teachers are ultimately responsible for curriculum and may draw from a number of child-based curricula to ensure programs are developmentally appropriate. The programs will provide each child with experiences which will encourage the following:

Self-Esteem and Positive Self-Image Development will be developed by:

- Maintaining staff and child interactions which are warm, nurturing and compassionate.
- Providing materials which help the child's progress and challenge the child's developmental level.

- Maintaining a daily routine which is consistent and predictable.
- Planning activities that are consistent with the child's development, interests, experiences, ethnicity and cultural backgrounds. Cultural diversity will be evident in programs, supplies, snacks and meals.
- Using positive communication between adult to child, and child to child.
- Stressing the importance of process, not products, and that each child is valued for individual achievements.

CHILD GUIDANCE

Behavior Management

- Environmental room arrangements and setting of limits will be carried out to help each child learn self-control, make correct choices, identify feelings and develop a healthy understanding and respect of feelings for others.
- Room arrangements will consist of preset limits in each area to enable children to recognize a problem in advance and determine what is expected of them in case of overcrowding in an area.
- The environment will provide optimal space for children to become involved in both group and solitary play. It will be arranged with specific areas, each with set limits and visually accessible to staff.
- Guidance will be ongoing throughout the day in all activities in which children participate. The staff and children will cooperatively establish expectations and will be posted for all to follow.
- Daily schedules and weekly lesson plans will be posted and followed to provide consistency and to help children thrive and build their bond of trust with staff.
- Optimal amounts of activities will be provided to keep each child involved at his/her developmental level.
- Daily routines will be examined, and transitional activities will be evaluated continually with the intent of accommodating the needs of all children.

Prohibited Treatment

Children will not be subjected to the following:

- Spanking, hitting, or other corporal punishment
- Verbal abuse or derogatory remarks
- Tying, binding, or confining
- Withholding or forcing food or naps

The above disciplinary actions are prohibited even at parental/legal guardian request.

Physical or verbal abuse will never be used to resolve conflict.

Child Management Techniques

Our goal is to guide children in becoming happy, responsible, and cooperative participants through positive teaching techniques. In the event that behavior requires discipline:

- Teacher action will not damage the child's self-image or embarrass the child.
- Teacher action will help children learn self-control, choose alternatives, identify feelings and develop an understanding and respect of feelings for others.
- Teachers will communicate regularly with families regarding behavior concerns.
- Every effort will be made by staff to enlist the cooperation of the child and parents/legal guardians to solve problems.
- Whenever possible, logical and natural consequences will be used as a format for discipline. Any disciplinary action shall be carried out by staff only, not by volunteers, observers or other children.

The following factors shall contribute to good discipline:

- Modeling by Adults – Adults shall model appropriate behavior by incorporating the Y core values of caring, honesty, respect and responsibility.
- Classroom Environment – The physical environment will provide optimal space for children to become involved in both group and solitary play. Equipment shall accommodate the height of the children and shall be arranged in a manner that defines specific areas of the room and allows visual accessibility by teachers.
- Planned Activities – Careful planning by staff will provide an optimal amount of activities to keep each child involved at his or her developmental level.
- Related Curriculum – Plans devised by the staff shall involve interpersonal relationships of children, identifying feelings, developing self-esteem, self-control, good manners, sharing, honesty and safety.
- Ongoing Scheduled Evaluations – Staff shall periodically examine the daily routine and evaluate transitional activities with the intent of accommodating both the needs of the children and the staff.
- Redirection of Children – Staff shall be aware of typical signals coming from children that indicate potential misbehavior, such as increased noise level and irritability. Staff will try to avoid discipline problems by offering a variety of appropriate activities. The staff will have more understanding of potential discipline problems by knowing the children involved.

Behavior Policy

Program policies are designed to meet state requirements to ensure the safety and well-being of all program participants, staff, vehicles and facility security. It is the desire of the Y staff that the children enjoy their time in the program, however, listening and abiding by age appropriate rules is expected of all children. It is essential that parents/legal guardians and staff work together to enhance every aspect of the program.

Discipline begins with positive interaction that reinforces the appropriate behaviors we desire in the children

in our program. It is our hope that YMCA Child Care programs provide a place of safety, growth, and positive interactions for children.

A serious guidance problem is defined as one in which the child is continually disrupting the smooth flow of the program in one of the following manners:

- Requiring excessive one-on-one attention
- Inflicting physical or emotional harm/injury on other children/staff
- Using inappropriate language and gestures
- Fighting, biting

If a serious guidance problem occurs, staff will give the child a timeout and/or attempt to redirect the child away from the behavior/activity, which is the cause of the behavior issue. Children may be removed from the situation if necessary but will at no time be left alone. The YMCA does not use any form of corporal punishment as a means of discipline. In the event these measures are not effective for a child we will take the following steps:

- First Violation: The child will be given a warning and parents/legal guardians will be given a written copy of the behavior upon pick-up.
- Second Violation: The parents/legal guardians will be called to come pick-up the child within 30 minutes, and the child cannot attend the program on the following day.
- Third Violation: Parents/legal guardians will be called to pick-up the child within 30 minutes, and the child will be given a week's suspension from the program.
- Fourth Violation: The child may be suspended from the program.

Zero Tolerance Behavior: Behavior that threatens or harms another person (adult or child) will not be tolerated. If your child exhibits this type of behavior you will be immediately called to pick up your child and services will be terminated. Types of behavior include violence with the intent to harm physically, mentally or emotionally, action deemed to be inappropriate or dangerous to themselves or others, aggressive intimidation, theft, destruction of property, carrying objects that would be deemed a weapon, possession of tobacco, alcohol or illegal substances.

Serious Behavior by Family Member: In the event that a situation develops where a family member exhibits inappropriate behavior, the YMCA reserves the right to require the family to either: have other family members drop off/pick-up child or to withdraw their child(ren) immediately without notice. Examples of "inappropriate behavior" include, but are not limited to:

- Arriving at the YMCA impaired and attempting to remove their children from the program.
- Being abusive to staff members and/or other program participants.
- Failing to adhere to YMCA policies listed in this parent packet.

The goal of this process is to allow every child an opportunity for growth as well as keep the environment safe for other children and staff working with the child.

Note: If your child has a disability that may impact his or her ability to comply with the above behavior policy and/or to fully participate in any of our programs, please let us know so we can discuss possible reasonable accommodations.

COVID-19 Illness Response

People with these symptoms may have COVID-19.

PROCEDURES FOR COVID-19 SYMPTOMS OR A POSITIVE TEST

Parents must notify the YMCA Child care if a child test positive for COVID-19. YMCA Childcare Director will notify CEO if there is a positive test. If a person becomes sick with COVID-19 symptoms or reports a positive COVID-19 test, the procedures listed below should be followed:

1. Children showing symptoms will not be allowed into the YMCA until it has been at least 10 days since symptoms appeared, at least 24 hours without fever or fever reducing medication, and other symptoms have improved.

2. If a child develops COVID-19 symptoms at school, the child will also be placed in the isolation area. Parents will immediately be notified to pick up the child and staff will call 911 if the child appears to be in medical distress.

3. Teachers will then close off any areas that were used by the symptomatic child for a prolonged period. If feasible, windows and/or outside doors will be open windows to increase air circulation. After 24 hours, staff will thoroughly clean and disinfect all surfaces in the area, in accordance with CDC guidelines.

4. Staff will determine whether other employees or students may have been within 6 feet of the infected person for at least 15 minutes. An infected person can spread COVID-19 starting 48 hours before the person had any symptoms or tested positive for COVID-19. Staff will notify those individuals (or, in the case of children, their parents) of the potential exposure. Notification will recommend that exposed individuals monitor their health closely, contact their health care provide, pursue COVID testing and self-quarantine if any symptoms develop.

5. If students or staff test positive, he/she may return following a 14-day quarantine or proof of a negative COVID test.

6. If a child has siblings in the center, the sibling will follow the same protocol.

7. Employees or children who have developed COVID-19 symptoms or had a positive COVID19 test should refer to the Arizona Department of Health Service's 'Release from Isolation and Quarantine' Guidance and flow chart.

Because each scenario is different, when COVID-19 related symptoms present, each case will be considered individually. The YMCA Childcare makes the final decision whether or not to exclude a child. We exercise the right to exclude a child despite a physician's statement, if that statement contradicts YMCA Childcare policies. The YMCA Childcare will post any communicable diseases and each classroom
